Migration Support Document

ICV Plan:

1. Investment:

- “IsContractRelated” – We have migrated Contract related investment records only. Other records will not be available in the new system.
- “InvestedBy” – We have removed Invested by field.
- “JSRS or Company name” – No longer available.

2. Workforce:

- No change in workforce element. It will remain same.

3. Goods:

- “JSRS Category” – It will be empty for migrated contracts.
- “Goods Sub Category” – It will be N/A for migrated contracts.
- “Sourced By, Manufacturer, Quantity, Unit Price, UOM ” – No longer available.
- “Value Procured from NRS , Value Procured from FRS ,” – We have removed these fields. Now you can enter the vendor category (NRS or FRS or SME) and its value.

4. Services:

- “JSRS Category” – It will be empty for migrated contracts.
- “Service Sub Category” – It will be N/A for migrated contracts.
- “Sourced By, % Sourced from NRS ” – No longer available.
- “Value of services from NRS , Value of services from FRS ,” – We have removed these fields. Now you can enter the vendor category (NRS or FRS or SME) and its value.

5. Indirect ICV Element:

- “Training” – All training datas have been moved to indirect icv element. For training the category will be “Training” and the sub category will be “Omani or Expat”.
- “Supplier Development” – All supplier development datas have been moved to indirect icv element. For supplier development the category will be “Supplier Development” and the sub category will be “During Contract Execution or After Contract Execution”.
- “Institution Support” – All Institution support datas have been moved to indirect icv element. For institution the category will be “Institution Support” and the sub category will be “Vocational and technical or Tertiary education or Research and development or Mandatory Training or Scholarship,Apprenticeship,TrainingLevy”.

ICV Actuals:

1. Investment:

- “IsContractRelated” – We have migrated Contract related investment records only. Other records will not be available in the new system.

2. Workforce:

- In the new system we are capturing employee level informations. Old workforce records wont have employee level details. So it will not be available in the workforce table. We are showing old records count in the workforce summary. If the contract is rejected or reopened, contractor needs to enter full workforce details with employee level details for that particular quarter.

3. Goods:

- **“JSRS Category”** – It will be empty for migrated contracts.
- **“Goods Sub Category”** – It will be N/A for migrated contracts.
- **“Sourced By, Manufacturer, Quantity, Unit Price, UOM ”** – No longer available.
- **“Value Procured from NRS , Value Procured from FRS ,”** – We have removed these fields. Now you can enter the vendor category (NRS or FRS or SME) and its value.

4. Services:

- **“JSRS Category”** – It will be empty for migrated contracts.
- **“Service Sub Category”** – It will be N/A for migrated contracts.
- **“Sourced By, % Sourced from NRS ”** – No longer available.
- **“Value of services from NRS , Value of services from FRS ,”** – We have removed these fields. Now you can enter the vendor category (NRS or FRS or SME) and its value.

5. Indirect ICV Element:

- **“Training”** – All training datas have been moved to indirect icv element. For training the category will be “Training” and the sub category will be “Omani or Expat”.
- **“Supplier Development”** – All supplier development datas have been moved to indirect icv element. For supplier development the category will be “Supplier Development” and the sub category will be “During Contract Execution or After Contract Execution”.
- **“Institution Support”** – All Institution support datas have been moved to indirect icv element. For institution the category will be “Institution Support” and the sub category will be “Vocational and technical or Tertiary education or Research and development or Mandatory Training or Scholarship,Apprenticeship,TrainingLevy”.
